

# How to Participate Using MyEtherWallet

## Step 1: Go to MyEtherWallet

Go to the MyEtherWallet website at <https://www.myetherwallet.com>. Make sure you are on a computer you trust and check the URL and look for the MYETHERWALLET LLC [US] Certificate.

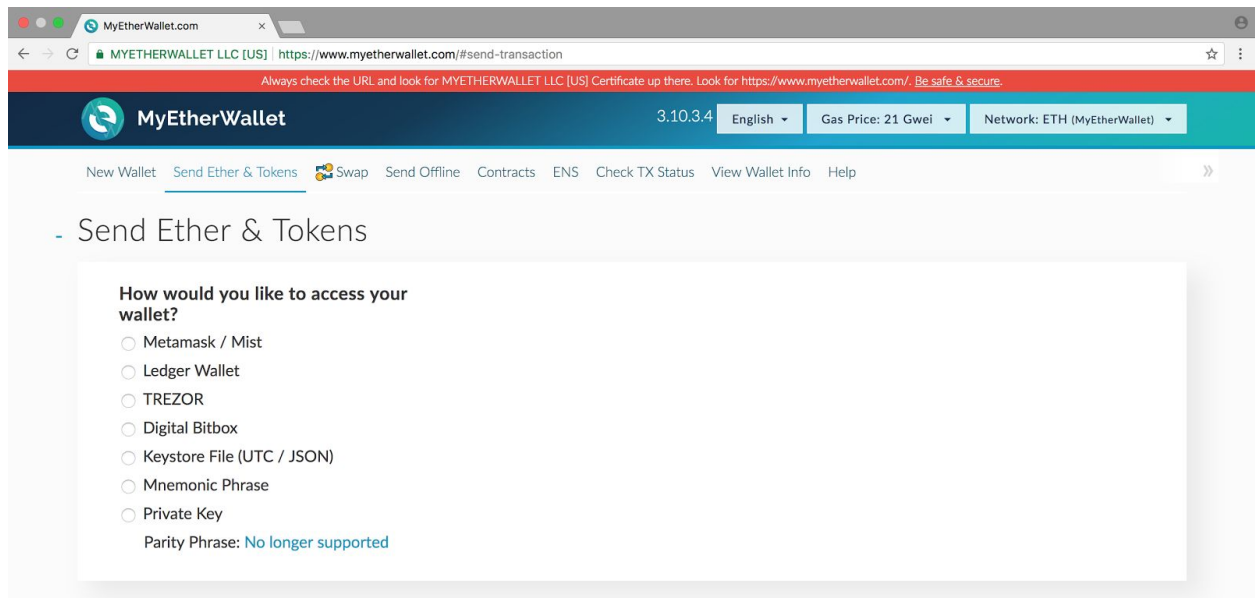

MyEtherWallet SSL certificate on Chrome

## Step 2: Open Your ETH Wallet on MyEtherWallet

Select the "Send Ether & Tokens" Tab.

Follow the instructions to open your wallet. (If you created a new wallet select the "Keystore File (UTC / JSON)" and the saved keystore file, otherwise select your applicable method.)

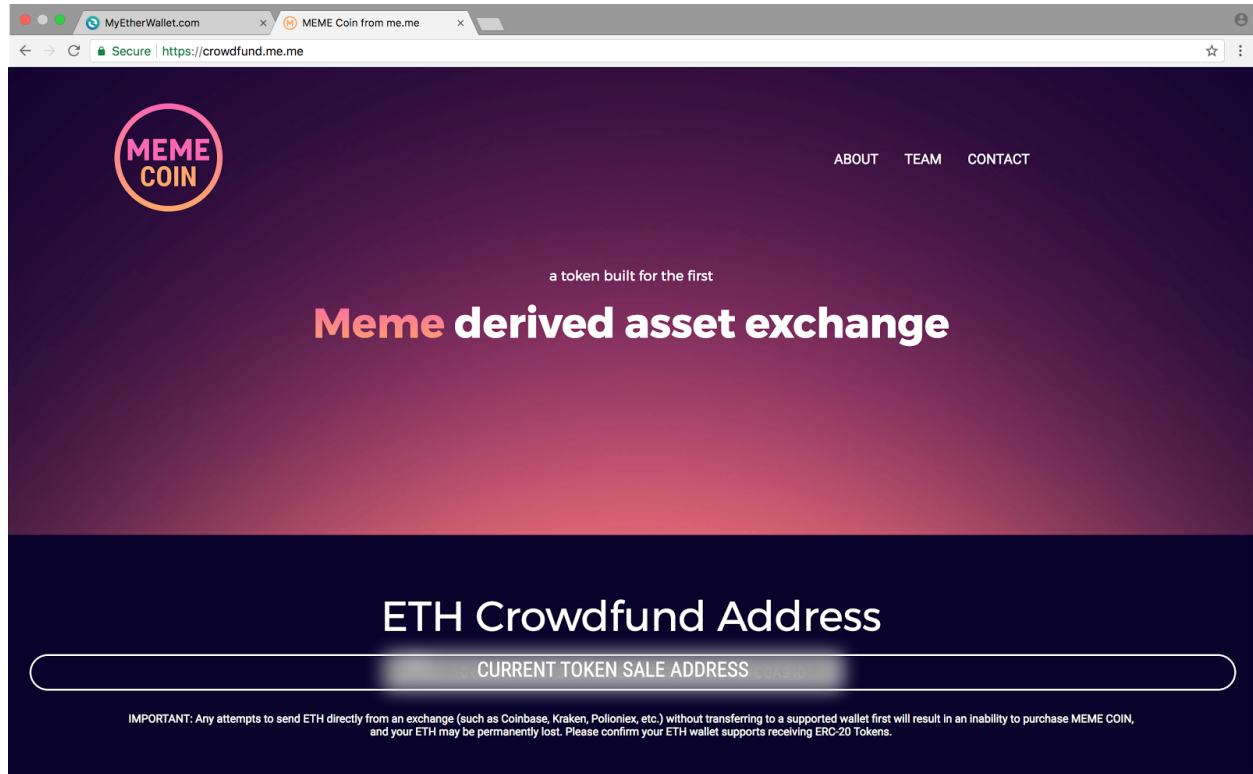

MyEtherWallet Send Ether & Tokens Tab

## Step 3: Obtain the MEME Coin Token Sale Address

Open <https://crowdfund.me.me/> in a new window/tab.

Copy down the current sale address. Make sure you verify this address before sending any ETH.

MEME Coin Crowdfund Page

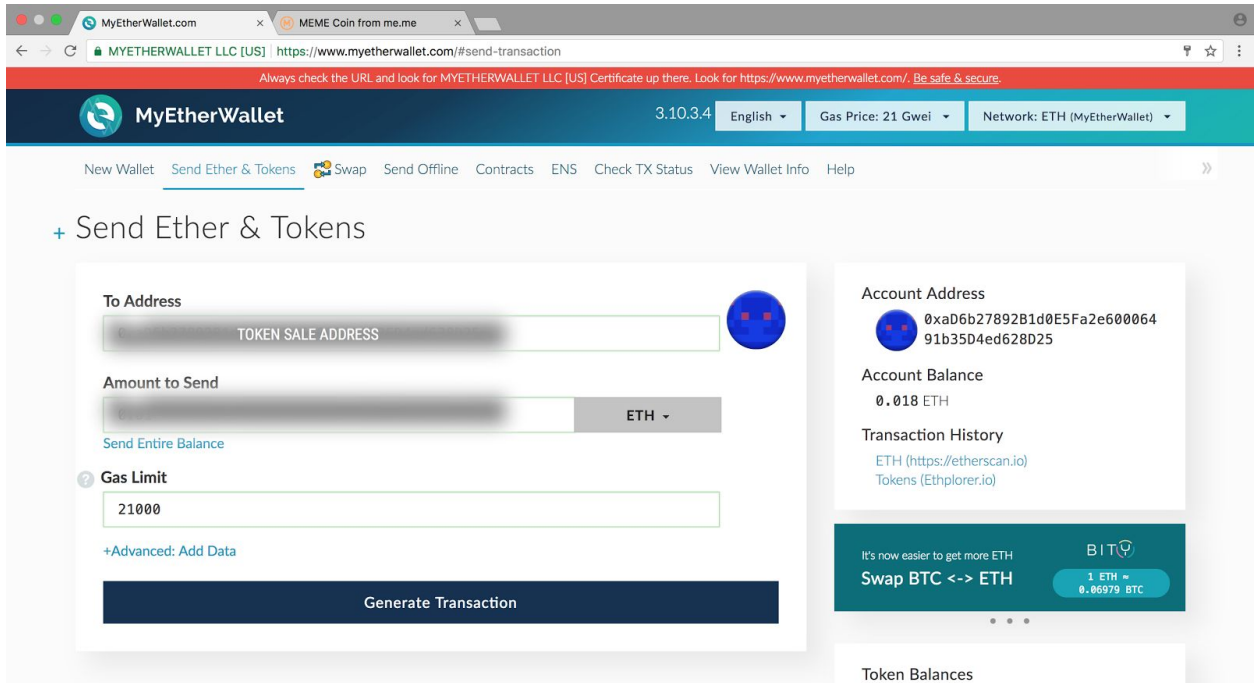

**IMPORTANT:** Even if you have been given an address through a different channel confirm the address you are sending to is the current listed address on <https://crowdfund.me.me/>. The wallet address may change for security and accounting.

## Step 4: Send ETH to the Token Sale Address

Fill in the "Send Transaction" form.

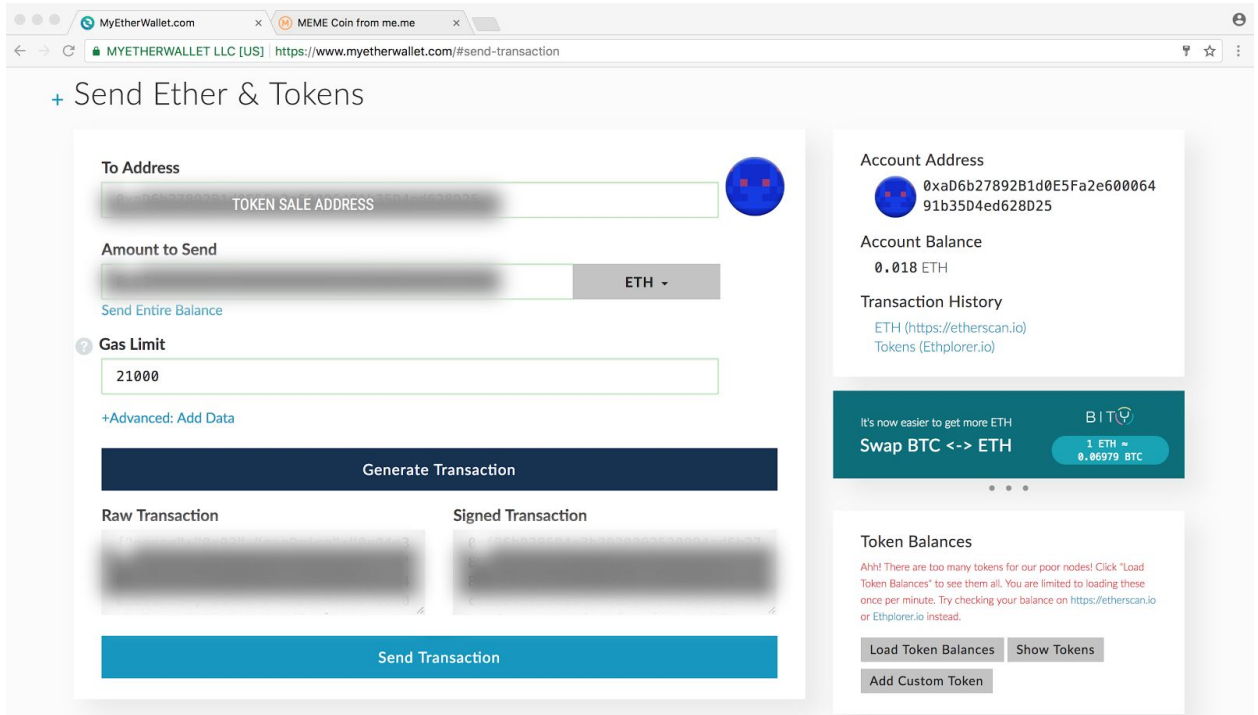

1. In the "To Address" field, place the sale address copied from the last step
2. In the "Amount to Send" field fill, in the amount of ETH you wish to use to purchase MEME Coins

3. Click on "Generate Transaction". The transaction will be signed.

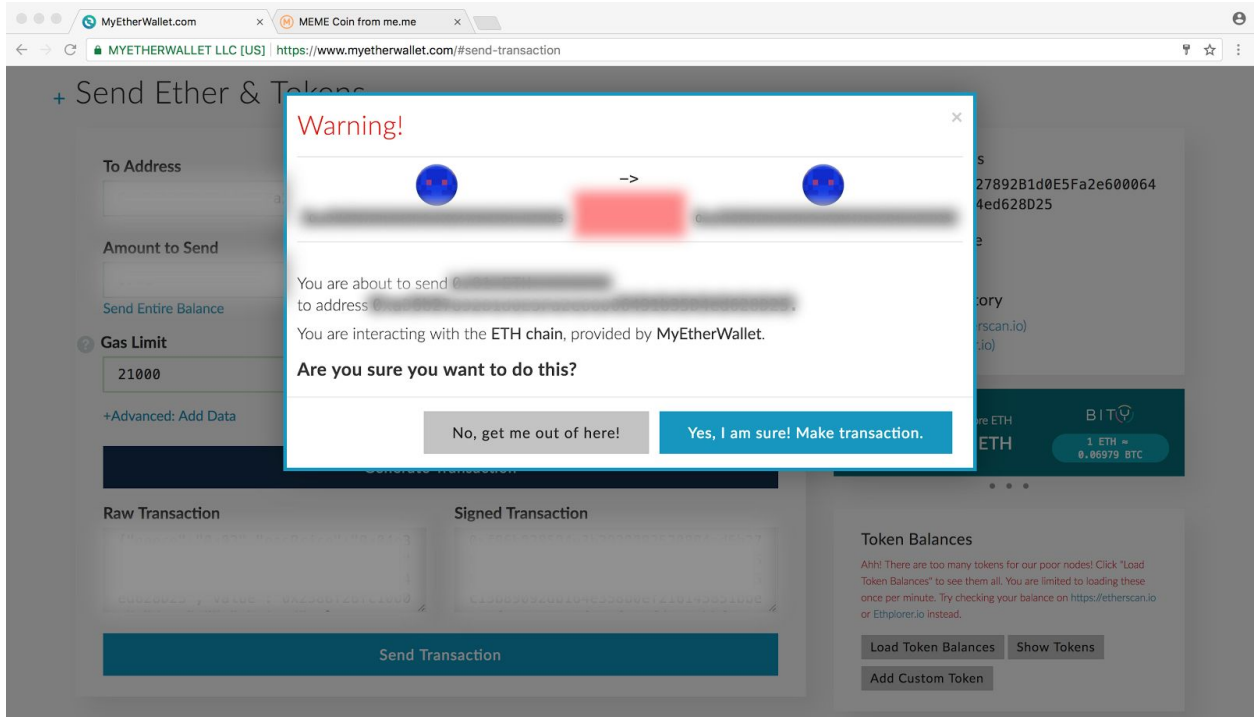

MyEtherWallet Generate Ether Transaction

4. Click on "Send Transaction" to broadcast the transaction. You will be asked to confirm the transaction. If the information is correct click "Yes, I am sure! Make transaction."
